---

Projects

Taytayan Camp Hub *(Capstone)*

Tech Stack: Laravel, Vue.js, Inertia.js, Quasar, MySQL, Pusher, PayMongo API, Google Maps API

- Developed a multi-role web application supporting 4 user types (Admin, Cashier, Customer, Rider), improving workflow efficiency and access control.
- Developed food ordering, room booking, and event ticketing modules with online payment processing and automated refunds.
- Integrated Google Maps API for delivery route calculation and distance-based fee computation.
- Created analytics dashboards with sales reports and data visualizations for admins and cashiers.

Wordvault

Tech Stack: React, Vite, Tailwind CSS, Supabase, TipTap, React Router

- Built a full-stack single-page application with authentication, protected routes, and full CRUD functionality.
- Developed an interactive quiz feature with randomized questions, instant feedback, scored results, and persistent history.
- Designed responsive UI components to enhance usability across devices.
- Integrated a rich-text editor (TipTap) for structured note-taking with persistent cloud storage.

Experience

Seoechelon — Feb 2025 – October 2025
Seo Specialist – Intern — Cordova, Cebu

- Developed and optimized client websites with a focus on performance, responsiveness, and SEO best practices.
- Conducted keyword research and created SEO-driven blog content to improve search rankings and visibility.
- Executed on-page and local SEO strategies, including Google Business Profile management and social media content creation.

Education

Cordova Public College — 2021-2025
Bachelor of Science in Information Technology — Cordova, Cebu

---
